Saturday Classes

Journeying with the Bible

There are hundreds of bible study guides, books, and methods, used to study the word yet we live in a biblically illiterate environment. What is the best way to study God's word and develop a hunger for more understanding? Do I need to study in a more disciplined manner? Join us for a deeper look and some great applications in studying God's word.

Organizing Your Steps

Can't find your shoes? Lost an important paper? Staying organized starts with a great basic plan that you can stick to. Anything you add into the mix heightens the level of organization needed. Are you involved in ministry? Do you feel called? How do I mix regular life with ministry? This class will help you to prioritize what is important and how to fulfill your role.

Stepping into Health

Everyone deals with sickness and disease. Our bodies are influenced by multiple factors such as the environment, foods we eat, and choices we make. If we've been affected by a major disease, how do we recover? God is still in the business of healing and these testimonies of recovery will strengthen your faith and encourage you to realize that you are not alone. Step into your health!

Finding Hope Walking Through Grief and Loss

Losing a loved one is a painful process. We experience times of grief, bleeding raw emotions, perhaps anger, and hopelessness. It may seem like it will never end but we are not alone. Christ promises to be with us as we take this journey. It's ok to be real and not hide behind what society thinks is acceptable. Join us as we tell our stories, cry together, love each other and find healing in community.

Jump in to Paint

Enjoy step by step instruction with our enthusiastic artist! You will complete and leave with a one of a kind masterpiece and perhaps a desire to explore a new talent. This class requires a \$10.00 supply fee and is limited to 25 ladies. Bonne peinture! (French for happy painting!)

Social Media HELP!

The internet is a constantly changing place where anything goes. How do I keep up? Am I downloading a virus? How do I keep my family safe? This is great information and some practical tips for how to navigate this area. Bring your questions and find help for walking the internet road.
